Assignment 2

Course	CS 3345
Course Title	Data Structures & Algorithm Analysis
Term	Fall 2023
Due by	**10/29/2023 at 11:59PM CST**

General Instructions

- Assignment is due on or before **Sunday 10/29/2023 at 11:59PM CST**
- This assignment is meant to be solved completely by individual students and not in groups.
- All problems are mandatory.
- Assignment submissions must be uploaded to the designated folder in eLearning. No manual submissions are accepted.
- Assignments **will not** be accepted late, unless eLearning has an accessibility issue and I'm informed about it. The submission URL will be disabled after the due-date, and hence no late submissions will be possible.
- Any form of dishonesty will result in a score of **0** on the entire assignment. Any students involved will, according to Departmental Policy, be referred to the Director of Community Standards & Conduct for adjudication.

Grading Policy
- Grading may or may not be based on all the problems. So do not take risks by missing any problem solution.
- 140 points for correct solutions (program, algorithm description, complexity analysis, etc)
- 10 points for the submission report organization and format
- Submitted JAVA code that does not compile and run will be counted as 0.
- If you wish to code in a different programming language than JAVA, you need to get a pre-approval from the class graders.

Assignment Problems

Solve the following problems from your textbook:
- **Chapter 3:** 3.11, 3.21(b), 3.33
- **Chapter 4:** 4.8, 4.19, 4.23, 4.27, 4.34
- **Chapter 5:** 5.1, 5.3 5.5

GOOD LUCK!
